2.1. Steps to access Schoology	3

1. INTRODUCTION

The following document provides instructions to access a yearlong one-to-one math curriculum for 7th grade, 7th grade advanced, and 8th grade classes. The curriculum will include notes for each lesson, along with accompanying activities, exit tickets, and homework, as well as pre/post assessments for each unit. Step by instructions for joining Schoology and accessing the entire math curriculum are described above.

2. SCHOOLOGY

Schoology is a Learning Management System (LMS) for schools that allows a teacher to create, manage, organize, and share curriculum, content and resources. The basic service is free, so all teachers can access the materials at zero charge to their district. In the following section, step by step instructions are provided to create a Schoology account and receive resources and the entire curriculum from my current Schoology account.

2.1. STEPS TO ACCESS SCHOOLOGY

1. Visit www.schoology.com.
2. Scroll to the upper right corner and click on the **Sign Up Button** – choose the instructor button.
3. Register by filling out personal information – if you sign in with Google before going to the website, you can use your Google account to sign in.
4. When you get to your home screen, **Verify Your Account** – located on the left side in blue ink (see Figure 1). When you verify your account, using your cell phone number, Schoology will text an access code. Place that code in the box provided.

8. Send an email to Adam Timmerman requesting which class you would like to receive material, curriculum, and resources.
 - a. 7th Grade Math
 - b. 7th Grade Advanced Math
 - c. 8th Grade Math
9. Once Adam Timmerman receives your email regarding requested materials, he will send you the materials.
10. You will find these materials under the **Resources Tab** (see Figure 5).
